

laser hair reduction

Graduate Certificate in Intense Pulsed Light and Laser Hair Reduction (SIB70110)

Qualification Outcomes

This qualification reflects the role of individuals who apply substantial specialised knowledge and skills to design and safely apply non-ionising radiation treatments using intense pulsed light and laser technologies to reduce unwanted hair on the face and body. In this role they make complex, high level, independent judgements in consulting with clients and analysing their skin and hair characteristics, designing and evaluating intense pulsed light and laser hair reduction treatment programs, selecting and using appropriate technology, and applying it within the context of safe client and operator practices and in compliance with regulatory requirements.

Ongoing technological developments in this area of practice require the use of broad knowledge and the identification, analysis and evaluation of information from a variety of sources to build personal capability.

Practice may be undertaken in the hair reduction stream of the beauty industry.

Course Duration and Study Options

The course runs over 12 months with pre-written work and a 6 day face to face intensive practical component with classes held from 9.00am to 5.00pm over (6) days.

The 6 day face to face component can be spread to suit you or blocked as 6 days consecutively for those from a distance.

Course Cost

The course tuition costs are \$5,900 and can be covered on a payment plan over 12 months.

Additional Fees not included in Tuition Fees

All students will be required to pay a (non-refundable) fee of \$250 to cover goggles, consumables, machinery, equipment, textbook and all products for the entire course at enrolment.

There are no hidden costs!

CORE UNITS

HLTINF005	Maintain infection control standards in office practice settings
SIBBHRS705A	Apply intense pulsed light and laser safety protocols
SIBBHRS706A	Design intense pulsed light and laser hair reduction treatment programs
SIBBHRS707A	Provide intense pulsed light and laser hair reduction treatments
SIBBRES702A	Investigate developments in cosmetic treatments using light or laser systems

COURSE PREREQUISITES

Individuals will need to meet the following:

Diploma of Beauty Therapy or a relevant qualification at diploma level or above in medical health, including the study of human biology, anatomy & physiology; & significant and relevant vocational experience as a beauty therapist with a primary focus on providing facial services, skin services and hair reduction services; or evidence of significant and relevant vocational experience relating to the application of human biology, anatomy and physiology knowledge in their respective field.

NATIONALLY RECOGNISED
TRAINING

RTO #32542

On completion of the Vocational Graduate Certificate in IPL/Laser Hair Reduction Qualification, you will automatically receive:

- An IPL/Laser Safety Officer's Certificate (Recognised by the Radiological Council of WA and QLD Radiation Health) (Approved by Queensland Radiation Health. Approval no: ED229)

Graduate Certificate in Intense Pulsed Light and Laser Hair Reduction (SIB70110) Cont.

Payment Plan Options

Fornightly Payments

Tuition Fee: \$ 5,900
Incidental Fee: \$ 250
Fornightly Payment: \$ 226.92 x 26 payments

Weekly Payments

Tuition Fee: \$ 5,900
Enrolment Fee: \$ 250
Weekly Payment: \$ 113.46 x 52 payments

Support Services

Demi International will provide learners with every opportunity to complete their chosen qualification. Support from your trainer is available to ensure you understand the learning and assessment requirements once you have commenced study with Demi International Beauty Academy.

The Academy will identify and access appropriate support services, and ensure the necessary services are provided for participants as required.

Assessment

The assessment methods used in the Certificate are competency based and include written and practical tasks. The assessment tasks are completed throughout your course of study.

Language, Literacy and Numeracy Advice

The National Reading Reporting System informs the identification and description of underpinning English language, literacy and numeracy features and requirements within competency standards. The learner's language, literacy and numeracy levels are expected to be equivalent to 3/4 of the National Reporting System.

A sound level of English language skills (reading and writing skills) is required.

Oral communication - a learner will be able to use and respond to spoken language within a variety of contexts.

Numeracy and mathematics - a learner will be able to recognise and use a variety of conventions and symbols of formal mathematics.
